Each gubernatorial and presidential election cycle my office produces a Post-Election report taking an analytical look at the data, trends and numbers on Election Day. For the first time, my team has taken the same analytical lens and applied it to the April 2017 Consolidated Election.

This year's consolidated election had many close races, a record number of registered voters and a new tool created by my office to help candidates run for office. Below is a snapshot of the election highlights found in the subsequent pages.

- By Election Day, there were more registered voters 1,534,858 than ever in suburban Cook County, and once again, Early Voting remained wildly popular this election season. The Early Voting turnout was up nearly 80 percent from 2015 and nearly 60 percent from four years ago. In total, 64,712 voters took advantage of Early Voting for the April 2017 election. Voting by mail increased by more than 45 percent from the 2015 Consolidated Election and nearly tripled its popularity from 2013.
- Additionally, Suburban Cook County voters returned slightly more than 86% of their requested mail ballots (15,837 of the 18,303).
- Roughly 33 percent of all races in the Consolidated Election were contested. In the 36 races where incumbents were opposed, the incumbent won 68 percent of the time.

Additionally, this was the first election candidates could use my new Running for Office Starter Kit (RFO), an online tool that assists candidates with finding and filling out the appropriate paperwork in order to run for office.

RFO Starter Kit users – who ran in 129 contests – made an impact on Election Day, preventing 43 races from going uncontested and 26 from not having any candidates for voters to choose from.

This election was not without a series of nail bitingly close races. Nearly a dozen races were decided by fewer than 10 votes. Some of the closest ones included:

- Trustee, Village of Barrington Hills, where in a 'Vote for 3' contest the candidate in third place, Robert M. Zubak, won by three votes (494) votes, while the candidate in fourth place, Matthew Vondra, had 491 votes.
- Trustee, Village of Burnham, where in another 'Vote for 3' contest, the 3rd place candidate, Denise C. Bonner, and the 4th place candidate, Paris Ellison, were separated by three votes (376 to 373).
- School Board, West Northfield 31, where in a 'Vote for 4' contest the candidate in fourth place, Jeffrey Steres, won with 265 votes, while the candidate in fifth place, Peter Stamatis, had 261 votes.

I hope you find this first-ever Consolidated Post-Election report, and the hard work my staff has put into it, useful and insightful.

Sincerely,

Havid On

David Orr Cook County Clerk

Early Voting Breaks Consolidated Election Record, Technology Helps Early Voters Find Shortest Wait Times

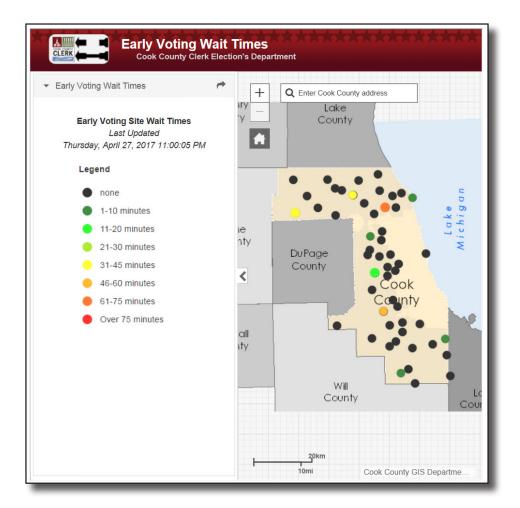

While most voters still cast their ballots at their local polling place on Election Day, Early Voting continues to increase in popularity. The record-setting in-person Early Voting turnout for the April 4 Consolidated Election dwarfed that of previous Consolidated Elections.

Nearly one-fourth of all voters in this election took advantage of Early Voting (23.7 percent).

In-person Early Voting jumped 78.1 percent from 2015 (36,259 to 64,585) and was 63 percent higher than the previous record Early Voting mark of the 2013 Consolidated Election (40,693).

With more voters than ever going to the polls before Election Day, the Clerk's office has used technology to make the voting experience even more convenient. Working with the Clerk's office, Cook County's Geographic Information Systems (GIS) Department developed an interactive map for the Clerk's website, which shows how long of a wait voters might encounter at each of the 52 Early Voting sites (51 in the suburbs and 1 at the Clerk's downtown Chicago office). Since voters can cast their ballots at any Early Voting site (unlike on Election Day when you must vote at your home precinct's polling place) voters, if they chose, could head to the sites with the shortest wait times.

The tool uses an algorithm that considers the number of people in line, the number of active check-in stations, and the speed of each check-in process to give voters an approximate wait time for each voting site.

Pre-Election Day Voting Sees Major Increases In Every Category

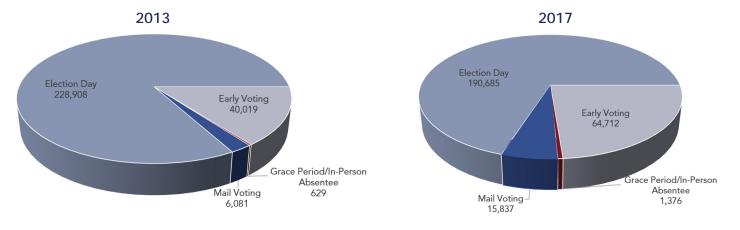

Pre-Election Day voting in all its forms – Early Voting, Mail Voting and Grace Period registration and voting – accounted for 30.1 percent of all ballots cast, an increase of 13.1 percent from the April 2013 Election. Mail Voting set records this election with 15,837 mail ballots cast – higher than any Consolidated Election in suburban Cook County history. This election more than doubled the total number of mail ballots cast in 2013.

Grace Period voting saw its largest increase this election – from 629 ballots in April 2013 to 1,376 ballots this election. Early Voting also saw a significant increase with a total of 64,712 – a 9.2 percent increase from the 2013 Consolidated Election.

Map includes all Early, Grace Period, Mail Ballot voting.

Incumbency Remains an Advantage for Mayors, Village Presidents

While not a guarantee for victory, incumbency can have its advantages for suburban mayors and presidents. Not only were a majority of their races uncontested, but in their contested races the incumbents more often than not won re-election.

Just about 33 percent (336 out of 1,031) of all races in the Consolidated Election were contested. This was in line with the percentage of contested races for with the two most recent Consolidated elections. In the 2015 Consolidated Election, 37 percent of races were contested, while in 2013, 36 percent were contested.

Incumbents in local executive-level offices have a strong advantage over their challengers, and this election was no different. In spite of any speculation to the contrary, the rate of incumbent executives who were defeated were not significantly higher than the last comparable Consolidated Election.

A majority of the incumbents running for municipal executive office in the Consolidated Election faced no opposition. Of the 86 incumbents running for re-election, 50 – or 58.1 percent – were unopposed. In the 36 races where incumbents were opposed, the incumbent won 25 – or 69.4 percent – of the time. In the 2013 Consolidated Election, 70 percent of the incumbent mayors/presidents who faced a challenger won re-election.

Election Day Turnout

Election Day Voter Turnout by Hour

An hour-by-hour analysis of voter turnout on Election Day shows that turnout started slowly but built up throughout the morning, before leveling off in the early afternoon. The pace picked up in mid-afternoon, leading to the busiest three hours of the day, between 4 – 7 p.m. The busiest one-hour block on Election Day was between 5 - 6 p.m., when more than 22,000 voters cast their ballots at the polls.

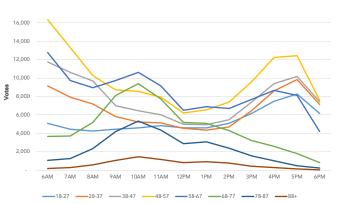

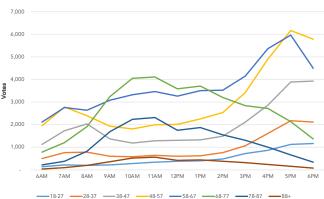

Election Day Hourly Voter Turnout by Age

Data from voter check-ins at the polling place shows that generally, older voters tend to vote earlier in the day, whereas the greatest number of the youngest voters were voting nearer to the end of Election Day. The three most popular hours to vote for those between 68 to 97 years old were all before noon, whereas the three most popular hours to vote for all others were between 4 – 7 p.m.

Apr. 4, 2017 Consolidated Election

7

Historical Turnout

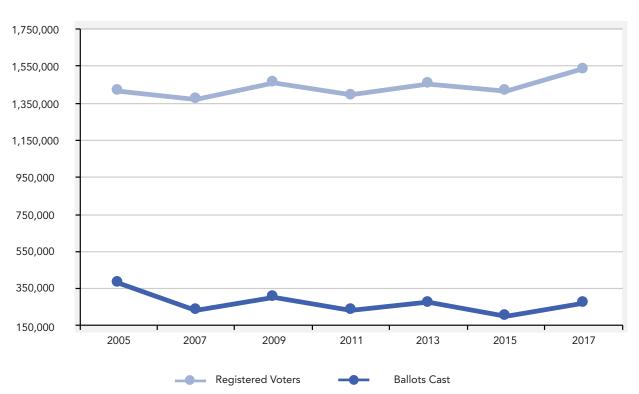

The turnout rate for the April 4, 2017 Consolidated Election – 17.8 percent – was slightly less than average for Consolidated Elections dating back to 2005. This is likely due to the number of uncontested races – 67.7 percent of the 1031 contests – and the lack of a U.S. Congressional contest in this year's election.

This year's suburban turnout was higher than the 2015 and 2011 Consolidated Elections (14.2% and 16.7% respectively), but lower than the 2013 Consolidated Election (18.9% turnout). However, in the 49 municipalities with contested mayoral or village president races, turnout averaged 27 percent.

The turnout percentage does not necessarily reflect a lack of voter participation, as there were more registered voters in suburban Cook County than ever for this year's Consolidated Election.

YEAR	REGISTERED VOTERS	BALLOTS CAST	TURNOUT
2017	1,534,858	272,610	17.8%
2015	1,416,706	201,180	14.2%
2013	1,455,446	275,637	18.9%
2011	1,395,756	233,350	16.7%
2009	1,463,070	304,766	20.8%
2007	1,371,803	236,050	17.2%
2005	1,418,280	382,587	27.0%

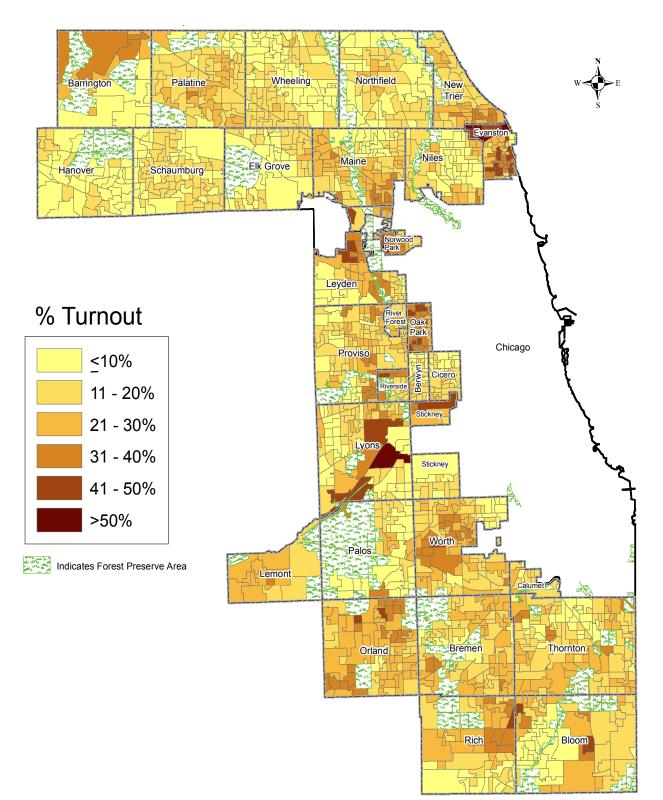

Consolidated Election Turnout: 2005-2017

Registered Voters, Ballots Cast in Consolidated Elections

Turnout of Registered Voters by Precinct

April 4, 2017 Consolidated Election Cook County, Illinois

Highest and Lowest Turnouts by Municipality

The contested or uncontested status of a race plays a major role in voter interest and turnout as the data below shows. The top 10 municipalities in the April 4, 2017 Consolidated Election, whether fully or partially within suburban Cook County, had a 21-22 percent higher turnout on average than those without contested races.

Willow Springs saw the highest turnout – 46 percent – on Election Day for municipalities featuring contested races for mayor or village president while Wheeling had the lowest turnout for the Consolidated Election – 12.7 percent.

*Note: This analysis is comparing municipalities with races for Mayor/Village President on the ballot. Those without a mayoral/presidential contest were not used in the above examples.

Women Outnumber Men in Number of Registered Voters

Women outnumber men by about 9 percent among total registered voters in suburban Cook County. While the percentage gap may not be as wide for those who have registered just in 2017, women consistently outpace men in the registration period in the few months before a Consolidated Election.

Reflective of the county's population as a whole, which is roughly 51.5 percent female/48.5 percent male, there are more female than male registered voters in suburban Cook County. The percentage of female voters to male in suburban Cook County is slightly ahead of their numbers in the general population; of the 1,534,858 registered voters in suburban Cook County, 54.2 percent are female, 45.8 percent are male.

From January 4, 2017 to April 4, slightly more newly registered voters were female (7,035, or 50.3 percent) than male (6,965, or 49.8 percent).

Over the past few Consolidated Elections there has been no substantial shift or increase in the percent of any age group or either gender registering to vote in three months leading up to Election Day.

The proportion of female to male new voters was lower this year up to Election Day than in any of the past few suburban Consolidated Elections. In 2015, 52.5 percent of voters who registered between Jan. 3 and Election Day were female, while 47.5 percent were male.

More than half of those who registered in the new year were between 18 and 35 years old. The highest number of recently registered voters continues to be those between 18 - 24 (28.5 percent in 2017; 30 percent in 2015, and 29.6 percent in 2013).

Multi-county location

Contested Races, Turnout and Suburban Demographics

Turnout varies across suburban Cook County municipalities in every election – but data from the April 4, 2017 Consolidated Election, when paired with recent census data, revealed notable demographic findings.

In the April 4, 2017 Consolidated Election, there were 41 municipalities with contested executive races (mayor, village president) on the ballot while 61 municipalities went uncontested. An analysis of the demographic and electoral data shows that suburban Cook County communities with younger and lower-income residents had more contested races and a higher turnout. Residents living in municipalities with uncontested mayoral races made - on average - nearly \$21,000 more per year than the municipalities with the contested races.

Finally, there was an average turnout difference of 11.3 percent – 27.2% in contested municipalities and 15.9% in uncontested areas.

Contested vs. Uncontested Demographics

	CONTESTED AVERAGE	UNCONTESTED AVERAGE	DIFFERENCE
Median Age	39	40	1 year
Median Household Income	\$55,811	\$76,711	\$20,900
Turnout	27.2%	15.9%	11.3%

*The above figures account for municipalities solely in suburban Cook County. There were eight contested races and nine uncontested races in overlapping districts (i.e., areas with portions located in an adjacent county). Census data obtained from the United States Census Bureau.

Busiest and Slowest Precincts on Election Day

Precincts Ranked by Turnout Percentage

Evanston Township Ward 7 Precinct 4 at the Evanston Ecology Center had the largest percentage voter turnout in suburban Cook County with 59.9 percent of registered voters casting ballots. Evanston had six precincts among those with highest turnout. Elk Grove, Wheeling, and Lyons townships had seven precincts with the lowest turnout. Elk Grove Precinct 38 had the lowest voter turnout with 1.2 percent.

Precincts Ranked by Ballots Cast

For the first time since it's been an Election Day polling place, the Northminster Presbyterian Church in Evanston had the greatest number of ballots cast on Election Day. Evanston Ward 6 Precinct 1 cast 747 ballots — the most of any in Cook County. In fact, over 400 more voters in that precinct participated than in 2013 and 2015 combined. All top 10 precincts had more than 590 voters cast ballots, 700 more voters than the top 10 precincts in the 2013 Consolidated Election.

Clerk's Running for Office Starter Kit

First Election for Candidate Use

Since debuting in October 2016, the April 4, 2017 Consolidated Election was the first election in which candidates could use the Clerk's new Running for Office Starter Kit (RFO), an online application that assists candidates with finding and filling out the appropriate paperwork in order to run for office.

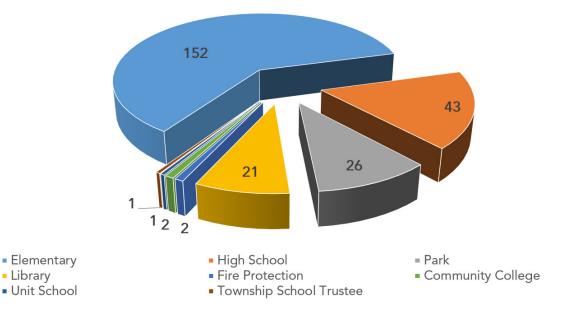

Within minutes, the RFO enables anyone living in suburban Cook County to view the elected offices they are eligible to run for and receive the necessary information and documentation to complete the process of running for office.

The Clerk's office not only aimed to help suburban Cook County residents participate in their local government, but to increase the amount of contested races and choices for suburban Cook County voters.

The 248 RFO Starter Kit users – who ran in 80 suburban municipalities and accounted for nearly 10 percent of all candidates – made an impact on the ballot, participating in 129 races and preventing 43 races from going uncontested, as well as 26 from not having any candidates for voters to choose from. Without these candidates, the 32.4 percent of contested races would have dropped to just 28.2 percent.

RFO Starter Kit User Description

Cook County Jail Detainees Register, Vote

Throughout the time that David Orr has been Cook County Clerk, the Clerk's office has worked with civic and advocacy groups to help detainees at the Cook County Jail register and vote.

Jail detainees largely are eligible to vote as felon disenfranchisement laws do not apply to them because they're awaiting trial and haven't been convicted of a crime. In many cases, those being held in jail are there because they just cannot afford bail before their trial.

Weeks before Election Day, staff from the Clerk's office, sometimes joined by volunteers from legal and advocacy groups, will visit the Jail to register detainees to vote. Detainees request their mail ballots when they register to vote. Since many of the detainees come from communities throughout Cook County, staff will determine which ballot they need, then during the Early Voting period, Clerk's office officials and volunteers bring mail ballots to all detainees who have requested them. Detainees must vote that day using the mail ballots, which then are delivered to the Clerk's downtown office, where they are stored with other mail ballots, not to be counted until the close of Election Day.

Detainee voting for the Consolidated Election took place on Tuesday, March 28, when 150 of the 257 detainees who requested mail ballots cast their ballots.

An Online Presence in the Consolidated Election

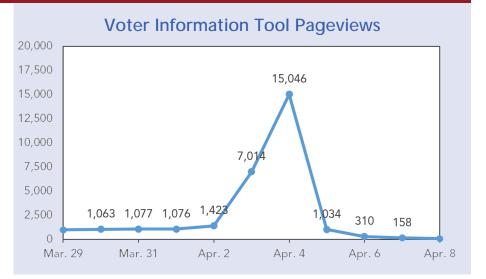

For the second time in a Consolidated Election, voters were able to register to vote and apply for a mail ballot online. The implementation of these initiatives resulted in record-breaking numbers in almost every category.

Aside from a surge in numbers, the Clerk's online presence also helped Election Day run more efficiently. Online registration, mail ballot applications and the Clerk's Voter Information Tool increased voter registration and turnout while decreasing lines by allowing eligible residents to register to vote and find their polling place from the comfort of their own home.

- More than 23,000 suburban Cook County residents used the Voter Information Tool from April 2-4.
- The "Find Your Polling Place" video was watched more than 450 times from April 2-4.

Be Vocal. #VoteLocal... Social Media Campaign

The Cook County Clerk's "Be Vocal. #VoteLocal" campaign began in February 2017, prior to the February and April Consolidated Elections. As the Elections administrator for suburban Cook County, Clerk Orr began the campaign highlighting to local voters the importance of their vote, especially when it comes to the governing of their own communities.

The "Be Vocal. #VoteLocal" campaign stressed to eligible voters in several ads, videos and social media posts, that so many parts of their everyday lives, from school crossing guard assignments to local fire protection and public park funding, are all affected by the multi-billion dollar budgets set by local units of government.

People who vote in local elections have the power to directly impact the decisions made in their communities. Suburban Cook County residents' votes never go further than when they're local.

Snapshots from Election Day

The first of nearly 200,000 ballots cast on Election Day was in Franklin Park. It took a dedicated team of 6,714 Election Judges and Equipment Managers to ensure that 190,685 registered voters were able to cast their vote in over 1,000 polling places on April 4.

The Clerk's office is committed to removing barriers at the polls – offering all 830 ballot styles in several languages. Through community and media outreach, over 1,200 Election Judges who speak additional languages including, Spanish, Hindi, Chinese, Korean and more were hired to work the polls for the Consolidated Election.

Our team of Election Day poll workers is comprised of a diverse group of civically engaged suburban, Chicago, high school and college volunteers spanning in age from 15 to 95 years old. The overwhelming majority of the judges in the April 4 Consolidated Election were returning for their second, third and even twentieth election.

With the election in full swing, Clerk David Orr monitored and directed election operations from his Chicago office, frequently updating the media and voters with important Election Day information. All this in addition to visiting several polling places throughout suburban Cook County.
